FOREX INTENSIVE with CyberQuote – A Subsidiary of Phillip Capital (Singapore – For Immediate Release)

Forex Asia Academy (FAA) is proud to announce that our flagship programme FOREX INTENSIVE is now co-organised with CyberQuote (CQ) - a subsidiary of Phillip Capital – Singapore’s largest securities firm.

“As we move forward to a new 2010, CyberQuote is even more determined to cement its reputation as a key player providing quality training courses and investment expertises that are crucial to investors at large. It really gives me great pleasure and confidence to present our partner to you, Forex Asia Academy to promote and educate the public on Forex Trading.”
Anthony Gan, Chief Executive Officer of CyberQuote Pte Ltd

In the world of promoting and marketing Forex courses and workshops, the big words of making money and quick bucks are very rampant. But, through the programme preview session ‘**Forex Intensive Preparation Workshop**’, participants are given a thorough understanding of the often-unexplained risks and rewards of Forex Trading and the factual and technical details of forex trading, not by hype or emotional selling.

The **Forex Intensive** programme educates self-directed traders to understand the dynamics of the Forex market, real-life techniques and thinking process behind Forex strategy creation. The workshops are appropriately designed for Asian traders and investors to capitalize on the trading opportunities during the Asian hours.

About Forex Asia Academy

Forex Asia Academy provides the most practical Forex education and the most powerful Forex strategies that are applicable in the ever-changing dynamics of the currency market.

With the unique focus to trade the Forex market during Asian hours, FOREX ASIA ACADEMY empowers self-directed traders the essential trading skills to trade Forex profitably.

About CyberQuote

CyberQuote Pte Ltd (CyberQuote) was incorporated in 29 May 1996 to provide IT solutions to the Financial Services industry, primarily in stock broking and insurance. CyberQuote helped to develop Singapore's first online share trading system, Phillip's On-Line Electronic Mart System (POEMS) which took Singapore by storm in 1996. Our quality work has enable CyberQuote to provide various IT consulting services to many companies.

Foreseeing the potential and strong needs for professional financial courses and education in the market, CQ Retail was established and has since, built a reputable name among financial players as a quality training institution. CQ develops and enhances a range of courses, seminars, workshops and software products for novices, professional traders and investors.
